

Claims

5 What is claimed is:

1. A mask, wherein said mask comprises:

 a mask formed from a substantially pliable material;

10 a first attachment member on one portion of said mask for attachment to a
 first portion of an eyeglass frame; and

 a second attachment member on a second portion of said mask for attachment
 to a second portion of an eyeglass frame.

15 2. The mask of claim 1 wherein said substantially pliable material
 comprises:

 paper.

20 3. The mask of claim 1 wherein said substantially pliable material
 comprises:

 cardboard.

25 4. The mask of claim 1 wherein said substantially pliable material
 comprises:

 plastic.

30 5. The mask of claim 1 wherein said substantially pliable material
 includes:

 fabric.

6. The mask of claim 1 wherein said mask further comprises:

5 said mask formed from said substantially pliable material by paper-cutting.

10 7. The mask of claim 1 wherein said mask further comprises:
5 said mask formed from said substantially pliable material by die-cutting.

15 8. The mask of claim 1 wherein said mask further comprises:
10 said mask formed from said substantially pliable material by molding.

20 9. The mask of claim 1 wherein said mask further includes:
15 said first attachment member is bent inward from said substantially pliable
25 material in order to be attached to the first portion of an eyeglass frame; and
30 said second attachment member is bent inward from said substantially pliable
35 material in order to be attached to the second portion of an eyeglass frame.

40 10. The mask of claim 1 wherein said mask further includes:
45 said mask is bendable in order to accommodate differing widths of eyeglass
50 frames.

55 11. The mask of claim 1 wherein said mask includes:
60 forming the entire structure of said mask from a single sheet of said
65 substantially pliable material.

70 12. A mask, wherein said mask comprises:
75 a mask formed from a substantially flat material;
80 a first attachment member on one portion of said mask for attachment to a
85 first portion of an eyeglass frame; and
90 a second attachment member on a second portion of said mask for attachment
95 to a second portion of an eyeglass frame..

13. The mask of claim 12 wherein said substantially flat material comprises:

paper.

5 14. The mask of claim 12 wherein said substantially flat material comprises:

cardboard.

10 15. The mask of claim 12 wherein said substantially flat material comprises:

plastic.

15 16. The mask of claim 12 wherein said substantially flat material includes:

fabric.

20 17. The mask of claim 12 wherein said mask further comprises:
said mask formed from said substantially flat material by paper-cutting.

18. The mask of claim 12 wherein said mask further comprises:
said mask formed from said substantially flat material by die-cutting.

25 19. The mask of claim 12 wherein said mask further comprises:
said mask formed from said substantially flat material by molding.

20 20. The mask of claim 12 wherein said mask further includes:
said first attachment member is bent inward from said substantially flat material in order to be attached to the first portion of an eyeglass frame; and

30 said second attachment member is bent inward from said substantially flat material in order to be attached to the second portion of an eyeglass frame.

21. The mask of claim 12 wherein said mask further includes:
said mask is bendable in order to accommodate differing widths of eyeglass
frames.

5

22. The mask of claim 12 wherein said mask includes:
forming the entire structure of said mask from a single sheet of said
substantially flat material.

10

23. A mask, wherein said mask comprises:
a mask formed from a substantially pliable material;
a first attachment member integrally formed on one portion of said mask and
bendable inward for attachment to a first portion of an eyeglass frame; and
a second attachment member integrally formed on a second portion of said
mask and bendable inward for attachment to a second portion of an eyeglass frame.

15

24. The mask of claim 23 wherein said mask further includes:
said mask formed from a single sheet of said substantially pliable material.

20

25. The mask of claim 23 wherein said mask further includes:
said mask formed from a substantially flat material.

25

26. A process for using a mask having a first attachment member and a
second attachment member, said process comprising:
attaching said first attachment member to a first portion of an eyeglass frame;
and
attaching said second attachment member to a second portion of an eyeglass
frame.

30

27. The process of claim 26 wherein said process further includes:
forming said mask from a substantially flat material.

28. The process of claim 26 wherein said process further includes:
forming said mask from a substantially flat material;
bending said first attachment member inward; and
bending said second attachment member inward.

5

29. The process of claim 26 wherein said process further includes:
forming said mask from a substantially pliable material.

10

30. The process of claim 26 wherein said process further includes:
bending said mask in order to accommodate differing widths of eyeglass
frames.

15 31. The process of claim 26 wherein said process further includes:
forming said mask by paper-cutting.

32. The process of claim 26 wherein said process further includes:
forming said mask by die-cutting.

20 33. The process of claim 26 wherein said process further includes:
forming said mask by molding.

34. A mask wherein said mask comprises:
a face portion of said mask;
25 a first attachment member integrally formed with said face portion and
bendable inward to attach to a first portion on an eyeglass frame; and
a second attachment member integrally formed with said face portion and
bendable inward to attach to a second portion on an eyeglass frame.

25

30 35. The mask of claim 34 wherein said mask includes:
said mask is bendable to accommodate differing sizes of eyeglass frames.

36. The mask of claim 34 wherein said mask includes:
said mask formed by paper-cutting.

5 37. The mask of claim 34 wherein said mask includes:
said mask formed by die-cutting.

38. The mask of claim 34 wherein said mask includes:
said mask formed by molding.

10
